Flag: Follow up

Joe,

I have attached SCAP-002 reports for the sites you requested. The first report is for all of the Montana NPL sites. The subsequent reports are for the sites you specifically mentioned. Please let me know if you need any additional information or reports.

Hi, Tyler:

Attached is my markup for the Milltown SCAP-02 report. When you get a chance, would you please send me the current SCAP-02 for all of the Montana NPL sites with the addition of Anaconda Aluminum (Columbia Falls), Smurfit-Stone Mill, Burlington Northern Livingston Shop Complex, and Burlington Northern (Somers Plant)?

Thanks and have a great weekend!

Joe

Subject: Quarterly Data Pull Preparations

Joe,

I have attached a SCAP-002 report that contains sites that need action updates in preparation for the third quarter data pull. Please look through the report and provide updates for the start and finish dates for any action that is not complete (those actions that do not have an 'A' next to their dates). Please send your updates to Dianna Lim or myself by Monday, July 6. **Prompt responses are greatly appreciated to ensure the data in SEMS is as accurate and up-to-date as possible.**
